

Class 8 Geography — Short Questions & Answers

PTB / 2022 Curriculum • Chapters 1 & 2

Chapter 1 — Oceans and Seas

1. Define Gulf?

Answer: A Gulf is a large but narrow part of an ocean that extends far into the land.

2. Differentiate between Spring and Neap Tides.

Answer: Spring tides are very high tides, while neap tides are low tides caused when the Sun and Moon are perpendicular.

3. Differentiate between Ocean and Sea.

Answer: An ocean is a huge body of salt water, while a sea is a smaller part partly enclosed by land.

4. What is the difference between Strait and Isthmus?

Answer: A strait is a narrow water channel connecting water bodies, while an isthmus is a narrow strip of land.

5. What is meant by Ocean Current?

Answer: An ocean current is the permanent flow of ocean water in a particular direction.

6. Give two major threats that oceans are facing nowadays.

Answer: Two major threats are global warming and oil pollution from ships.

7. Differentiate between Bay and Gulf.

Answer: A bay is a large part of an ocean extending inland, while a gulf is narrower and extends farther inland.

Chapter 2 — Living with Climate

1. Define Extreme Weather Condition.

Answer: Extreme weather is a weather event that is significantly different from the average or usual weather pattern.

2. What are the two major threats of Climate Change?

Answer: Two major threats are rising sea levels and extinction of many plant and animal species.

3. What is Greenhouse Effect?

Answer: The greenhouse effect is the process in which greenhouse gases trap heat near Earth's surface.

4. How can we improve Air Quality?

Answer: We can improve air quality by planting more trees and using public transport to reduce emissions.

5. Define Global Warming.

Answer: Global warming is the gradual increase in Earth's temperature due to human activities and environmental changes.

6. What is meant by Pollution?

Answer: Pollution is the addition of harmful substances or materials into the environment.

7. What are the causes of Greenhouse Effect?

Answer: Increased carbon dioxide, methane, CFCs, water vapour and other greenhouse gases cause the greenhouse effect.

8. Name the types of Pollution.

Answer: The main types are water, land, air, noise and light pollution.

9. Suggest strategies to reduce Air Pollution.

Answer: We should plant trees, reduce vehicle emissions and avoid harmful gases to reduce air pollution.

10. Enlist the causes of Noise Pollution.

Answer: Major causes include traffic, factories, construction work, loudspeakers and heavy machinery.
